Journal Entry Profile

Journal Date: 29-Jan-05	<u>Conditions</u>	
	High Temp: 30 °F	Low Temp: 24 °F
Weather: Cold! But, much warmer than yesterday		% Humidity: 0 Precipitation: 0

Journal Entry:

- Gave the birds a lot of food today. There has been snow on the ground for a week. By afternoon there were about 30 birds feeding on the wall in the backyard. A deer must have felt comfortable with all the 'activity'. He came within 10 feet of the sliding doors at the back. A young one - beautiful. Huge ears!

Sightings this Date

<u>Specie</u>	<u>Individual/Marking</u>	<u>Habitat</u>	<u>Time</u>
